INSTRUCTIONS

Issuance of a certificate of plan approval does not authorize the start of construction. A permit to start construction must be purchased, and the Building Official must grant permission to build, install, or construct this project.

HVAC, Electrical, Mechanical, Gas Piping, and Refrigeration Contractors must be state licensed and registered with Logan County in order to purchase a permit to install these systems.

This Department does not research for property deed restrictions and easements that may impact building approvals.

1. This application will not be accepted without all necessary information as indicated.
2. Zoning approval when required.
3. Site approval from Logan Health District or Ohio EPA must be submitted for new structures or additions.
4. Five sets of the specifications and plans shall be submitted. A601.1
5. Filing an application for permit does not constitute permission to proceed with work. A401.1
6. Person primarily responsible: the design professional for building construction shall be responsible for the coordination of all ancillary documents including subsequent specifications and reports, electrical, plumbing, HVAC, gas lines and fire protection.
7. Application is invalid six (6) months from the date of same if permit has not been secured. A401.1.3
8. The approval of documents is invalid if construction, erection, alteration, or other work has been not commenced within twelve (12) months.
9. The Building Official shall be notified of inspections not less than twenty-four (24) hours in advance.
