

YOUR SAFETY IS OUR MAIN CONCERN

Our board has an ongoing concern about the safety of motorists entering and exiting both the Discovery Center and RTC board office buildings on State Route 47 West. Over the past 10 plus years, we have attempted to have the Ohio Department of Transportation change the 1/4 mile stretch of St. Rt. 47 West that fronts both buildings into a no passing zone. They have consistently refused to make the change.

- When approaching either driveway from east or west, watch vehicles as they approach at a fast rate of speed
- When attempting to enter either of our driveways from the west bound direction, take extra caution to be sure that a motorist is not attempting to pass you when turning into our driveway
- When turning east out of our driveway on State Route 47, be sure to look both directions before proceeding. There have been incidents where a vehicle attempts to turn east and confronts a west bound vehicle attempting to pass in the east bound lane.

YOUR SAFETY IS OUR MAIN CONCERN!
